Ephémères 2011

Faithful to their mission of making aware and educating the largest number at contemporary art, Ephémères 2011 will offer opportunities to discover the ramparts of the medieval city, along the rivers, the original installations of several confirmed professional artists with different backgrounds and sensibilities.

An exhibition of their works in the city throughout the month of May will announce the event.

Creative workshops were launched early this year to involve the entire population in the event (schools, medical and educational institutions, nursing homes, individuals, etc ...).

Thanks to their originality and friendliness the Ephémères 2011 will be once again, the opportunity of a great adventure between artists, constructive confrontation between them and the public.

The town of Château-Landon and the Cercle des Métiers d'Art thank all the artists who

joined this event. The organisation committee will do its best to make them this long weekend of the Ascension as pleasant and friendly as possible.

Château-Landon, artists village

Château-Landon, 90 km from Paris, is an ancient city perched on a rocky spur. The city attracts and is now home to many artists seduced by the beauty of its location and its rich historical heritage.

It is in this context that some of them, definite art lovers created some 10 years ago the Cercle des Métiers d'Art. In this approach, they were encouraged by the City and they shared the same desire to initiate and spread an original perspective on contemporary art in harmony with the local heritage.

Thus, this convergence gave birth to many original cultural events for the region and their success was undeniable from the local population but also regionally.

For 10 years, under the auspices of the Cercle des Métiers d'Art and with the help of the Tourism Office, Ephémères (2005-07), the Croisées d' Arts (2009), the Heritage Days (2001-02-03), the Spring of Poets (2002-03-04-05-06-09-10) and the annual Artists Workshops Open Days, punctuate and enrich the cultural life of the city.

About this site www.fmr2011.org

The site www.fmr2011.org in its "pre- Ephémères" version is continuously improved with especially for each participating artist a page showing his works and achievements. Each update is also the opportunity to add online information about the organisation.

The site "pre- Ephémères" intends to allow communication between the artists and the audience and of course to publicise the event.

After the Ephémères, this internet site will change to become in final an image of the event. The "post- Ephémères" version will be the only one to remain online. A backup version of the "pre- Ephémères" version will however remain accessible upon request to the organisation committee.
